

Creative box

This activity is designed to help you and others consider a wide range of ideas that can inspire creativity and ideas.

For this activity, collect interesting, inspirational items that can then be kept and used for yourself or others to get ideas from.

You have to include:

- Two famous paintings that you like or admire.
- A local news story.
- A national news story.
- An international news story.
- A story about someone in your family from either the past or present.
- A dramatic story from you when you were younger.
- Lyrics from a favourite song.
- A strange object you've found *or* a photo of a strange object that someone else has found.

With your ideas, use the space below to mind-map some ideas. You may choose to write one of the items in the middle and then develop ideas around that, or more than one idea to then explore and develop key ideas. When making notes, consider vital aspects of the film idea such as location, characters, conflicts and key moments.
